Re: MAIDSTONE LEISURE ADDITIONS &
CHANGES

Thank you for your recent enquiry for the above project.

The attached schedule has been prepared in accordance with the Guild of Architectural Ironmongers Code of Practice and/or relevant British Standards and we trust we have interpreted your requirements correctly.

Please note that copyright subsists in this schedule and is owned by Laidlaw.
It may not be copied in whole or in part for the purpose of obtaining alternative quotations.

Laidlaw is a fully registered and continually assessed company to ISO 9001 and ISO 14001.

If master keying has been included in the specification, precise details of your keying requirements will be needed.

The sizes given for kicking plates in the schedule are nominal only and are subject to confirmation of final site sizes by the contractor. The price invoiced will be pro-rata to those quoted.

Where an order requires the products to be packaged and labelled in door sets, a supplemental charge of £3 per door set will be applied to cover the additional work involved.

For additional comments please refer to the **NOTES** page at the end of this document.

MAIDSTONE LEISURE ADDITIONS & CHANGES

The information given in the enclosed schedule is correct at the time of it's production. Laidlaw has a policy of continuous improvement and product development, therefore preparation of doors should only be carried out after checking with us that specifications have not changed.

The items specified in the enclosed schedule are quality products and require fixing in accordance with good trade practice. Fixing instructions are supplied with standard products.

In all cases, it is vitally important that the manufacturers fixing instructions are read and understood before fitting. This is particularly important with the more technically advanced products.

Any revision should be notified immediately and a copy of the floor plans and door schedule forwarded to the above address.

REV.1.KEYSWITCHES OMITTED.BREAK GLASS UNITS INCREASED TO 4 NO UNITS.
