

<b>210 PENTONVILLE ROAD - RESIDENTIAL</b>															
<b>DOOR / ACCESS PANEL SCHEDULE FOR CONSTRUCTION</b>															
<b>PROJECT No. 6007</b>															
<b>File name:</b>		(32)30 [2 sheets]													
<b>Date:24/10/2007</b>															
<b>REVISION [highlighted areas] :</b>		<b>E(24.10.2008)</b>													
<b>SCHEDULE TO BE READ IN CONJUNCTION WITH DWGS 6007 (32)21 - (32)24</b>															
<b>NOTE:</b> Where suffix '1' or '1' [doors & jams] is indicated [eg A1 or J1.1], EXISTING															
CONDITIONS are assumed & exact dims in all respects need to be <b>checked on site prior to construction.</b> [incl Head details to existing walls]															
<b>NOTE:</b>															
1. Where existing openings are indicated, heights are taken from upper level slab where slab heights vary at door threshold. (Some of these heights are measured from upper level slabs with an existing finished floor [ie tiled]. )															
<b>All widths and heights to be checked on site prior to construction</b>															
Standard doors/frames will need to be packed to suit existing openings.															
2. Actual door openings measured in schedule are structural openings. In some cases openings will be smaller due to existing plastered wall finishes that will be overlaid.															
Please refer to DWGs (2-)29, 30, 31 and 32 for these circumstances.															
<b>FIRE RATINGS</b>															
FD.30S - 30min. FIRE RESISTING DOOR WITH SMOKE SEAL															
FD.60S - 60min. FIRE RESISTING DOOR WITH SMOKE SEAL															
FD.120S -120min. FIRE RESISTING DOOR WITH SMOKE SEAL															
<b>DOOR FINISHES</b>
