Show discontinued modules ☐ - These are modules that have now been replaced by an updated version. However, if the update is recent, your discontinued certification may still be valid

IMPORTANT! Classroom records only appear for eLearning accounts that have been set up with a driving licence number, and the licence number recorded on the attendance records matches exactly. Don't worry if you can't see all expected training records as all valid training records are available through the FORS Professional training register that managers have access to.
