Doc rev: K2054i	Health Surveillance Record
-----------------	-----------------------------------

Individual, up-to-date health records must be kept for each employee placed under health surveillance. These should include details about the employee and the health surveillance procedures relating to them.

This record of health surveillance should be submitted to HR / Site Manager, for filing on the individual's personnel record ready for inspection by the employee and / or any visiting Inspector on request.

Personal and medical information held and processed on paper and/or electronically should be held within the scope of the General Data Protection Regulation.
