NB

An individual's competence depends not only on original training but also upon practical experience in the use of the tools in question. Advice in respect to this is available from the address above.

SAFETY NOTE: Section 6 Health and safety at Work Act 1974.

The safety of the Hilti DX / GX Tools depends upon their design as a composite system. Therefore for safety's sake, only Fastenings, Cartridges, Gas and Accessories to the same specifications as those produced by Hilti should be used in Hilti tools. Failure to comply with this warning could lead to hazards being created to users of these tools in question. "Hilti excludes all liability for loss, damage or injury arising from failure to observe these instructions".
