Comments / Notes:

Any developing sensation experienced during the period of works is to be reported immediately by operatives to the Site Manager, who is required to inform the Company Safety Officer. Operatives are to be reminded of the following: Not to smoke, to keep warm and to use the tools as directed.

This document is to be used as a tool for both monitoring and controlling operations. The Company Safety Officer will monitor and calculate the vibration exposure for each operative and advise if any action or procedural controls need to be implemented on site.

Please include this form in your weekly returns to RCL Head Office and cc. Rachel Widdows.
